## INFORMATION DISCLOSURE STATEMENT

Enclosed is the International Search Report 3 pages) from the European Patent Office as the international searching authority from the present international application listing 9 references and their relevant portions.

In the International Search Reports the references listed in category X mean each document is of particular relevance; the claimed invention cannot be considered novel or can not be considered to involve an inventive step when the document is taken alone with respect to the listed claim. The references listed in category Y mean that these references are of particular relevance; the claimed invention cannot be considered to involve an inventive step when these documents are combined with each other, such combination being obvious to a person skilled in the art with respect to the listed claims. The International Search Report is also in English and points out relevance of the

Since the International Search apport is in English and the relevant portions of these references are pointed out there in English, and further the US patent and the European and WO references are in English, no further pointing out of relevance is needed.

Two PTO-1449 forms are presented listing all 9 references being submitted herewith. One of the references, namely US Patent 1,951,607 is in the English language. Translations of the foreign language references are not available to the undersigned.

This submission meets the requirements of 37 CFR  $\S1.56$ , 1.97 and 1.98(a) and MPEP 609.
